

Ritesh Kumar

Senior Product Designer | Growth, AI & Consumer Experiences

📞 +91 8197809767 @ riteshkumarhk@gmail.com 🌐 riteshk.work 🌐 linkedin.com/in/riteshkumarhk 📍 Hyderabad, India

SUMMARY

11+ years of experience designing Growth, Identity, AI-powered, and consumer experiences across Microsoft Edge, Windows, Microsoft Search, Xbox, and Automotive platforms.

Recognized for combining product strategy, growth experimentation, systems thinking, accessibility, behavioral design, and AI-assisted prototyping to solve complex customer and business challenges

EXPERIENCE

Senior Product Designer

Microsoft Corporation

📅 03/2024 - Present 📍 Hyderabad, India

- **Microsoft AI – Edge Growth:** Lead design strategy for Microsoft Edge Growth, translating complex onboarding, setup, browser switching, and account-access challenges into clear, scalable customer experiences.
- Own Edge's next-generation First Run Experience, defining journey flows, interaction models, personalization patterns, content strategy, and scalable setup experiences for millions of new users.
- Drive growth in acquisition, engagement, retention, and conversion using insights, telemetry, experimentation, and prototyping. Utilize cross-functional storytelling to influence product direction.
- **Impact:** Improved onboarding and adoption, increasing 3-week average browser minutes by 3.31%, scaling onboarding experiences to 26M new devices/month, and strengthening retention against competing browsers.
- **Windows Consumer Identity:** Designed identity and passwordless experiences for Windows Hello, Microsoft Account, FIDO, Passkeys, and 3P services.
- Simplified secure access journeys across sign-in, consent, passkeys, and credential experiences, making authentication more convenient, reliable, and trustworthy.
- Led UX strategy for Windows passkeys and passwordless experiences, partnering across Design, Engineering, Security, Product, Compliance, and industry standards teams.
- **Impact:** Helped launch Windows passkeys with 175K+ enrollments in 10 days, expanded passwordless readiness to 250M+ Windows users, supported consent experiences for almost 1B users, and resolved 80+ usability issues across 200+ workflows.

Product Designer II

Microsoft Corporation

📅 05/2019 - 02/2024 📍 Hyderabad, India

- **Xbox – Game Pass Subscription Growth:** Led subscription experience design for Xbox Game Pass, helping customers understand plan value and make confident decisions across acquisition, cancellation, plan evaluation, and retention moments.
- Designed experimentation-led subscription journeys that translated customer pain points, telemetry signals, and growth opportunities into clearer, more user-centered lifecycle experiences.
- Partnered across Product, Engineering, Data Science, and business teams to improve high-impact subscription flows while balancing customer needs and business goals.
- **Impact:** Delivered measurable subscription growth and retention impact, contributing to 136K new subscriptions, \$15M revenue, and 130K+ annually retained users.
- **M365 Core – Microsoft Search, Assistance & Intelligence:** Designed AI-powered search and discovery experiences across Outlook, Teams, SharePoint, Bing, and Microsoft 365, helping users find answers, people, events, links, acronyms, and organizational knowledge faster.
- Led UX for Microsoft Search Answer experiences, shaping answer frameworks, interaction patterns, result layouts, consumption flows, and reusable design patterns across Microsoft surfaces.
- Designed scalable experiences across Acronym, Calendar/Event, Link, Knowledge/Topic, Shy Answers, and people-centric search surfaces, balancing usability, accessibility, relevance, visual hierarchy, and platform consistency.
- **Impact:** Improved answer discovery and knowledge access across Microsoft products, reaching 6.2M monthly users and generating 2.0M successful answer interactions.

HMI Design Consultant

Jaguar Land Rover

📅 01/2015 - 06/2018 📍 Gaydon, Warwickshire, UK

- Designed production-ready HMI and infotainment experiences for Jaguar Land Rover's InControl Touch Pro platform across premium vehicle lines.
- Owned user flows, wireframes, storyboards, interaction models, usability evaluation, and graphical specifications for in-vehicle digital experiences.
- **Impact:** Helped translate complex automotive requirements into intuitive, safe, feasible, and premium in-car experiences ready for engineering implementation.

Senior User Experience Designer

Tata Elxsi Limited

📅 08/2016 - 07/2018 📍 Bengaluru, India

- Led automotive UX and HMI design across infotainment, HUD, instrument cluster, connected cockpit, and future mobility programs.
- Translated client insights and business requirements into workflows, interaction concepts, visual systems, theme boards, and design specifications.
- **Impact:** Enabled faster alignment across client, offshore, design, and engineering teams, shaping production-ready UX directions for global automotive programs.

EXPERIENCE

User Experience Designer

Tata Elxsi Limited

06/2014 - 07/2016 Bengaluru, India

- Designed mobile app and automotive interface experiences across iOS, Android, infotainment systems, electric vehicles, and concept cars.
- Created user flows, wireframes, interaction concepts, graphical specifications, and early-stage HMI concepts for product and engineering teams.
- Impact:** Helped turn early product ideas into clear, user-centered, handoff-ready experience concepts while building foundational expertise in UX, HMI, and visual design.

SKILLS

Growth Strategy	Product Strategy	Personalization	User Acquisition	Activation & Onboarding
Retention & Engagement	Conversion Optimization	Experimentation	Subscription Growth	
Identity & Authentication	Consumer Product Design	Cross-functional Leadership	AI Product Design	
Data-Informed Design	Stakeholder Management	Generative AI	AI Prototyping	Agentic Workflows
Design Mentor	Information Architecture	Interaction Design	Design Conceptualization	Storytelling

KEY ACHIEVEMENTS

 Landed Microsoft Edge's next-generation First Run Experience (FRE) vision Aligned product and design leadership, helping to secure funding to build the next evolution of Edge FRE	 Enabled better design planning through an AI-powered system for Microsoft AI Built an AI-powered planner to help designers plan effort, track work items, bugs, and deliverables
 Recognized for shaping Microsoft's passwordless future on Windows Won Microsoft Design Thinking Award for defining customer-centered identity, authentication, and passkey experiences across Windows	 Represented Microsoft through FIDO Alliance and Authenticate 2024 as a speaker Contributing to industry conversations on authentication, passkeys, and customer trust

AWARDS

 Microsoft Design Thinking Award Consumer Identity Experiences • Microsoft • Aug 2024	 Speaker – Authenticate 2024 Windows Platform UX Representative • Oct 2024	 Microsoft Fix Hack Learn Winner Microsoft • Feb 2023
 Microsoft Fix Hack Learn Winner Microsoft • Nov 2020	 28th Rank National Cross Country MTB Championship Cycling Federation of India • Oct 2021	

CERTIFICATIONS

Top distinction UX Certified

The Interaction Design Foundation

EDUCATION

Bachelor in Design (B.Des)

NIFT Bangalore

2010 - 2014

- Communication Design

CISCE (ICSE + ISC)

Motilal Nehru Public School, Jamshedpur

1998 - 2010

- Computer Science
